

Encouragement of research in
the field of micropaleontology
and biology of foraminifera

October 2009

International Paul Brönnimann Award 2010

to be awarded during Forams 2010 in Germany (September 5-10)

www.forams2010.uni-bonn.de

Purpose - Encouragement of research in the field of micropaleontology and biology of foraminifera.

Award CHF 5'000.-

Topic selected – Foraminifera

Requirements - Maximum age is 35. An affiliation with a university or a research institution is necessary. All scientists working in the field may participate, whatever their country of origin or residence.

Criteria for selection - The contribution must be original, and particular attention will be given to innovative approach, multidisciplinary studies and practical applications. If the study is new and unpublished, the applicants will send a manuscript conforming with the instructions of the 'Revue de Paléobiologie' in which the selected work will be published. If the results have already been published or are in press, candidates will send an expanded abstract, also conforming with the instructions of the 'Revue de Paléobiologie', in which it will be published if selected.

Application - Applicants must send a CV with a list of their scientific publications and a summary of their scientific activities until June 30 2010 to the following address:

Fondation Paul Brönnimann
Muséum d'histoire naturelle
CP 6434
CH-1211 Genève 6, Suisse
Tel : +41 22 418 63 00, fax : + 41 22 418 63 01
